## LET US TOGETHER SHAPE YOUR ASPIRATIONS

ITM firmly believes that education should be for life, not for living. Education should serve not only to develop a intelligence and skills but also to broaden one's outlook and make a person useful to society and the world at large. At ITM discover the joy of learning!

## UNIQUE PROGRAMMES

Unlike the popular belief, the journey of an MBA graduate does not end with bagging a great job offer, rather it continues when the student enters the gates of the corporate organisation as a credible management professional. While MBA course work contains plenty of theoretical knowledge, it increasingly emphasises the development of skills to apply this knowledge in the real world. Global markets are rapidly changing, and students need to stay abreast with these changing realities. Through B-Talks, ITM MBA ensures that our students regularly interact with industry experts and gain practical knowledge and exposure. This also helps them stay attuned to current industry trends and requirements. We invite seasoned professionals and entrepreneurs to talk about the industry, emerging trends, new opportunities and career options. Our students make the most of these opportunities, closely interacting with guests and learning from their experiences.

However, there is more to being recruited by top companies than just being technically qualified for the position. This is where skill development comes in handy. B-ignites helps students identify their strengths and guides them in determining their desired professional profile through Residential Training Programmes, Workshops, Seminars, Resume Building and Interviews Preparation. All the above collectively plays a major role in equipping our students with the right skill set for the future.

That's not all... For all future entrepreneurs out there, B-Starts provide Entrepreneurial support and the basic fundamentals on how to start a business, from the ground up so budding entrepreneurs can learn how to dial in their ideas and pursue their own business ventures.

The association of students with ITM MBA does not stop post the MBA programme. They always carry the brand of the Institute and emerge as educated and responsible citizens, contributing towards the society and engaging in sustainable business practices.
